

MMS 2025

28th WORLD MICROMACHINE SUMMIT

June 2–5, 2025

Montréal ● CANADA

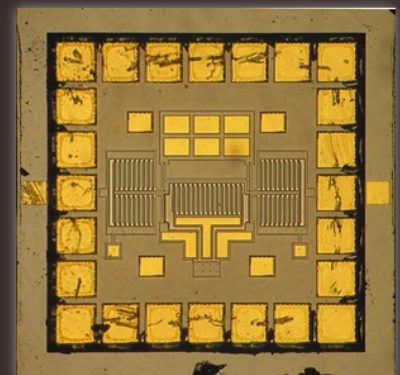

THANK YOU, to everyone that attended The World Micro Machine Summit 2025! We had an amazing time connecting with you all. We are very grateful to our sponsors 3!T and Technum Quebec for their partnership in nurturing our ecosystem.

Smart Systems, Sensors and MEMS

Dive into the world of micro- and nanotechnology at MMS 2025, the premier global forum for networking and insightful conversations on the latest integration, frameworks, and initiatives. This year, Canada is thrilled to host the event, offering a unique opportunity to spotlight our technological advancements and commercial successes.

In today's dynamic global climate, the Canadian semiconductor industry is leveraging our strengths and innovative strategies. We invite you to join us in Montreal to be part of these exciting discussions and help shape the future of technology.

Micromachine Summit Objectives

- ✓ Deliver information on the current state of micro- and nanotechnology integration including cutting-edge research, technological advancements, policy frameworks, and strategic initiatives within countries and regions.
- ✓ Foster collaboration between industry, universities, government agencies, and service providers focused on this technology
- ✓ Provide a forum for world-wide networking with leaders in MicroNano Technologies (MNT)
- ✓ Showcase regional MNT efforts and facilities

Thank you to our Sponsors
